ONE YEAR ONE DOLLAR

The Press has no desire, disposition or intent to keep anything from the public in reference to the reported case of smallpox in Marion. We have the utmost confidence in our local physicians, but there are scores of people, well informed people, who do not believe there is any smallpox in Marion, and the proper way to remove the doubt is for either the local physicians to see the case and agree, or to send for a physician who is familiar with the disease from practice. The local board of health, the city authorities and the county judge owe it to the community and to the county to have this done, and done quickly. It will cost but little, and it might save a great deal. The opinion of an expert would immediately satisfy the public, and if it is the smallpox, the local authorities would have the undivided support and earnest cooperation of the people in an effort to stamp it out, on the other hand with a large per cent of the people believing that it is not the smallpox, the local board of health will be so handicapped that more time and more money will be necessary to reach the same end than would be necessary to pay the expenses of an expert. The city can well afford to bear the expense, the county can well afford to pay it, and the two can well afford to divide and both will save money whether it is or is not the smallpox. It is really that disease, and a perverse public won't believe it and because of this unbelief the disease spreads, the spread must be charged up to the local authorities, it could have been prevented by convincing the public at a reasonable expense.

The L. and N. is still furnishing the sinews of war.

Better not have any governor at all than to have bloodshed.

John Young Brown and Simon Boliver Buckner on the retired list.

Neither soldiers nor court injunction seems to scare Goebel.

The Democratic candidate for governor in Maryland was elected by a majority of 12,121.

The voting November 7, seems to have been merely a skirmish preceding the great battle. Let the bloodless fight proceed.

Some people object strenuously to the use of money in elections, but the purchase of majorities apparently adds to their joy.

A cablegram from Manila announces the death of Maj. John A. Logan, Jr., of the thirty-third regiment. He was killed in action.

Judge Evans of the Federal court at Louisville instructed his grand jury to investigate the possible bribery of colored voters. What next?

Out of 5,300 votes polled in Henderson county, John Young Brown got 157. Probably a candidate is not without votes save in his own country.

The general impression prevails that the city council elect will grant saloon license, and that after Jan. 1, 1900, it is possible to buy a drink in Marion.

The McKInley majority was only 280, and in forty precincts in Louisville there was not a Democratic election officer. The affair passed off without bloodshed.

The report of the sinking of the United States cruiser Charleston in Philippine waters is confirmed by a cablegram from Admiral Watson. No lives were lost.

John R. McLean, the editor of the Cincinnati Enquirer, made a great race for governor in Ohio. Nash, the Republican, was elected, but he is about 75,000 votes short of a majority of the votes cast.

If the Post and Dispatch had not told such outrageous lies about the Brown crowds, the Brown speakers and the Brown strength in this county prior to the election, somebody might believe their election returns.

The latest advices from Manila are to the effect that Aguinaldo and his army are surrounded by the American army and cannot escape, but the "latest news" from Manila is usually about as reliable as the latest election returns in Kentucky.

The Republicans voted awfully lively to have entertained any idea that their votes would be stolen. If they had understood that their ballots were really to be counted, there is no telling what the eleventh district would have done.

The city undertaker of Memphis was arrested at St. Louis and four of his trucks containing corpses were seized. He confessed that he has for some time made a regular business of dealing in "siffs."

CONTESTS

The Majority Claimed by Both Down to Hundreds

And There Are Contests in Several Counties To Be Settled.

Both sides are still claiming victory in Kentucky, and there are charges and counter charges of fraud. Tuesday's Courier Journal sums up the situation as follows:

There are contests for Governor in seven counties over pluralities aggregating 4277, which are many more than enough to throw the result of the election either way. The contests over votes that are claimed by Mr. Goebel affect an aggregate plurality of 1333, while an aggregate plurality of 2944 for Taylor is effected by the remaining contests.

On the uncontested vote, Mr. Goebel has a plurality of 1637. Official reports have been received from 113 of the 119 counties, and they show an official plurality, uncontested, of 3359 for Goebel, while the six uncontested votes for Taylor, leaving a net plurality on the uncontested votes of 1637 for Goebel. On the six counties not yet officially reported, the count has not been completed in two—Jefferson and Harrison—while the result in Floyd, Knott, Letcher and Pike has not been reported. The count in Louisa is not half completed, and the exact result here will not be known before the end of the week. In Knox county the contest has not yet been settled. In Johnson county the contest is over the use of tissue ballots.

In Christian county there is a contest in one precinct involving a Republican plurality of 95.

The State Board election commissioners must meet not later than the fourth Monday after the election, which would be December 4. They may meet sooner if the returns are all in.

Yesterday's Courier Journal says:

The settlement of contested points in Christian and Harrison counties and the addition of the official returns from Pike and Harrison make only slight changes in the estimate made yesterday as to the result of the vote for Governor. Goebel still leads on uncontested votes; Taylor has about an equal lead in the contested votes.

The contests in Nelson, Pike, Knox and Johnson counties will go to the State Board. A contested precinct in Hopkinsville and a contested ward in Cynthiana were thrown out by the County Election Commissioners of Christian and Harrison counties yesterday. Mr. Taylor yesterday filed suit in the Nelson Circuit Court, asking for a mandamus to compel the precinct election officers of the county to meet and certify for him the vote that has been certified for W. P. Taylor.

WHAT IS IT?

Marion Has a Genuine Small Pox Scare.

Two Reputed Cases in the Hebron Neighborhood.

Monday morning the people of Marion were thrown into a state of consternation by the report that there were smallpox in town. Will Clement, a young negro, is sick at his father's in a cabin on the road a short distance south of town, and has a disease that is, or resembles smallpox. Dr. J. J. Clark was called to see him Sunday evening and pronounced it a case of smallpox. He has not seen the patient since the first visit and no other physician in town has seen him since. Some ten days or two weeks ago Clement came home from Mt. Vernon, Ind., he says.

Dr. J. R. Clark, the health officer, is satisfied that it is a genuine case of smallpox; the negro called at his office some days ago for treatment and the doctor's suspicion was aroused and he sent him home. A doctor said to the Press:

The patient has been isolated and there is little danger of the disease spreading, especially if everybody is vaccinated. The smallpox is not infectious, that is you can not contract it from a case until after the breaking out stage, when the sores begin to run, then and not until then is it contagious. This negro was confined several days before that period, and we have taken strict measures to keep the family entirely cut off from others, and propose to see that this is done if we have to put guards on duty. While as I have said there is no danger before the breaking out of the disease on a patient, yet we have isolated all persons who were with him immediately prior to this and shall confine them until all danger is past.

While a great many people do not believe that it is smallpox, every precaution is taken against its spread and these steps were taken so promptly that the health officers think there is little danger of its spreading in any event. After the first fright and a thorough investigation, the people of Marion are going about their business as usual.

On Mr. H. M. Cook's farm twelve miles north of town, there are two sick men and it is thought that they also have the smallpox. Dr. C. E. Moreland, the attending physician, was in town Monday; he said that he was not satisfied that it was smallpox; while the indications were not satisfactory, the patients had been to Cave-in-Rock, where it is reported, there is smallpox, and he thought it necessary to take the usual precautions until further developments. A quarantine was established against Cave-in-Rock, and there will be no more crossing of the river at that point for the present.

CIRCUIT COURT.

Grand Jury in Session Only a Few Hours.

Petit Jury Adjourned Until Next Monday.

Judge Nunn convened Circuit Court at this place Monday morning. Just a few hours previous the small pox alarm had been raised, and after a consultation with the members of the bar and the Local Board of Health it was decided that it would be best to adjourn court as it would be difficult to get witnesses to come to town with the smallpox scare on hands. The grand jury was empanelled, and instructed to investigate the charges against Charles Tabor who was in jail charged with taking a horse that did not belong to him. He was indicted for trespass and the grand jury adjourned sine die.

The petit jury was empanelled Tuesday morning and discharged until next Monday, when, it was anticipated, the scare will blow over, and the court will take up the civil docket.

BOY DROWNED.

A Joe Boat of Coal Goes Down Near Weston.

Saturday a boy named O'Neal was drowned in the Ohio river opposite Weston. He had a small boat loaded with coal, and was going to Cave-in-Rock. The boat struck a bar and as the boy shoved it off with his oar, the little craft went down and the waves rolled over it. The boy evidently could not swim as he was seen to go under and rise three times and then go down to come up no more.

Persons at Weston saw the tragedy but as the boat was on the opposite side of the river no assistance could be rendered the drowning boy.

His body was dragged up the next day. He was about fifteen years old and the son of a shanty boatman whose craft has been moored at Fords Ferry some months.

"Uncle Jeff"

Mr. T. J. Nickel, Representative elect, was in town Monday looking and feeling as happy as a man of sixty-four can well be. "Uncle Jeff" has long nourished the ambition to represent Crittenden and Livingston in the Legislature, and now that he has been elected, he is in good humor with the world and all mankind.

"I have just seen my late opponent and he was not so cheerful as he usually is, in fact I don't think he saw me. I was sorry to find him so grim. He put me in the hole four years ago, and now that I have evened up with him, I hope there are no heart strings broken."

Uncle Jeff is not what is happily denominated a "good electioneer," had he been the equal of his opponent in this particular, he would have had a larger majority. He is a plain blunt old gentleman and does not worry about the size of a majority, just to its in his column, its all right.

"The best thing of the whole affair," said Uncle Jeff, "is the handsome majority Joe Blackburn has in the legislature. Old Joe, God bless him, I am anxious to get where I can vote for him for the United States Senate."

ADAM CLARK JOHNSON

Rev. Adam Clark Johnson died of apoplexy at his home in Quitman, Arkansas, last Sunday morning. The relatives here have received no particulars of his death, and it is surmised that the funeral has occurred, or will occur at Quitman.

Mr. Johnson was born in Caldwell county, near Princeton, Ky., in January 1832, and was the youngest but one of seven children. In November, 1854, his parents, Rev. John and Susannah Johnson, emigrated to Jefferson county, Illinois, and settled in Mt. Vernon. His father was a Methodist preacher and had preached through a number of southern states, notably Kentucky, Tennessee and Mississippi. Clark, as he was generally called, was about two and a half years old when his parents came to this county. They settled on a farm and the father also preached the cause of religion and Methodism in this section.

At the age of 16 Clark returned to Kentucky and began the study of medicine in the office of his brother, Dr. Thomas Johnson. His memory, for which he was ever in after years famous, was noted at this time and showed itself in the remarkable manner in which he could recite almost verbatim page after page of the medical works he had read. He overtaxed his mental and physical strength, however, and had to abandon his studies, and it is not known whether he ever was admitted to the practice of medicine, though he was usually addressed as doctor. He taught school in Kentucky, and about 1860 or '62 was married to Miss Margaret Sweeney in Crittenden county, Ky. Later he returned to Mt. Vernon, where taught school at times, and for several years was employed in the circuit clerk's office by Uncle Johnnie Bogan, then clerk.

Johnson was a Methodist preacher, but at one time occupied the pulpit of the Presbyterian church for months, preaching to the Presbyterian congregation. Almost a dozen years ago he with his family moved to Oxford, Miss., where he resided a few years when he emigrated to Quitman, Ark., where he remained until the time of his death. His wife died at the latter place about two years ago.

Mr. Johnson was, perhaps, better

acquainted with Jefferson county history and knew by name more people than any man who ever lived in the county, and was for several years before his departure for the South, Secretary of the Pioneer Association. At one time he wrote a history of Jefferson county, and also edited the "Recollections of Rev. John Johnson," his father, which dealt largely with the early history of this county. As a writer of a verse and pithy style Clark Johnson had no superior, and his education, which he had attained by his own efforts unaided by college advantages, was extended and thorough and covered a wide range, embracing a knowledge of Latin, Greek and other languages. He showed conclusively what a man of determination, steady habits and good morals, without money or influence, can accomplish when he is desirous of receiving an education. While in Arkansas he engaged in the real estate business and seemed to prosper, and during the past year he was one of the instructors in Quitman college.

Clark Johnson was a good man, a good citizen and a useful man, and death is deeply regretted by all who knew him. He was a man whose example is well worthy of emulation in many respects.—Mt. Vernon (Ill.) Register.

If any person within said city who has never had the small-pox shall go into a house where the disease is, or associate with a person who is afflicted therewith, the police judge of the city of Marion, on due proof of the fact, may cause such person to be conveyed to some house or place in the county where the disease will not spread, there to remain until he shall have gone through the disease, or until a physician shall certify that he will not take the same.

WILL WHITE YIELD?

He Discusses Capitulation With the Boer Commander.

SUCH IS THE REPORT IN BRUSSELS.

Burglars Blowing Up the Dynamite Huts Around the Kimberley Mines With Well-Directed Shots at Long Range—Condition of the Besiegers and Besieged at Ladysmith.

London, Nov. 14.—Late dispatches from Estcourt, Natal, report that hitherto communication has been established with Ladysmith, but so far no news has been received, the latest date being Nov. 6, which shows that the occupants of Ladysmith had no news of the outside world since General French reached Pietermaritzburg, and that they were puzzled at the inactivity of the Boers. Every one was confident and cheerful, but all were suffering the inconvenience of the siege, bread selling at 3 shillings per loaf.

Colonel Baden Powell's dashing sorties at Mafeking encouraged the hope that the British garrisons along the western border are all able to hold out. Cecil Rhodes is employing 8,000 men, white and black, at Kimberley, in roadmaking, as a remedy for destitution.

According to a dispatch from De Aar the Boers at Kimberley have got the exact range of the mines and are constantly throwing shells at the dynamite huts. Several of the latter have been blown up, and the damage to the mines already amounts to many thousands of pounds.

Among the stories from Brussels is one that General Joubert and Sir George White have been endeavoring to negotiate for the capitulation of Ladysmith, but have failed to come to terms.

The stories of Father Matthews, a priest from Louranzo Marques, regarding the surrender at Nicholson's Nek, are too vague to be very convincing, but in military circles it is considered unpleasant reading, and it is impossible to learn the facts until the officer concerned has been court-martialed.

The report that the British cruiser Magicienne had fired on the French steamer Cordoba raises the doubtful point whether Great Britain has yet actually declared war. It is believed, however, that European nations have been made acquainted with the severity of relations between Great Britain and the two republics.

It is understood that the admiralty, on General Buller's advice, has arranged that cruisers at the Cape should go out to intercept all arriving transports and inform them of the latest orders respecting their destination, which are to be kept secret.

Female Sandbaggers.
New York, Nov. 13.—Police Captain Delaney of the East Thirty-fifth street station arrested three young women whom he believes to be western women who have been working this city for some time past in searching their rooms the police found brass knuckles, a revolver and a large number of pawn tickets, ranging in sums from \$10 to \$50. The latter were for diamonds, rings, watches, gold and silver plate. A bottle of "knock out drops" was also found.

A Bloody Contest.
El Paso, Tex., Nov. 13.—Tommy Maher, the featherweight champion of Chicago, and "Reddy" Gallagher, featherweight champion of the southwest, fought a draw on the Mexican side of the Rio Grande. The contest was spirited and bloody, and witnessed by 500 persons from this city. Darkness stopped the fight at the end of the twentieth round.

Identified Mullinax.
New York, Nov. 13.—An affidavit by Joseph Koch, manager of a Broadway private letter agency, positively identifies Roland B. Mullinax as the man who engaged a letter box on Dec. 21, 1898, under the name of H. Cornish. Koch further swears that a small sample box of Kuhn powder as well as other pieces of mail arrived, addressed to H. Cornish.

Run Down While Fighting.
Shamokin, Pa., Nov. 14.—While John Yunk and Conrad Winske, Hungarians, were engaged in a fist fight on the track near Enterprise an express train ran them down and instantly killed them both. The men had been to a Hungarian christening at Enterprise, and becoming involved in a quarrel, they walked down the railroad to fight it out.

A Startling Rumor.
